

Robert Soden

CURRICULUM VITAE // AUGUST 2026

Associate Professor
Department of Computer Science, School of the Environment
University of Toronto

soden@cs.toronto.edu
<http://robertsoden.io>

RESEARCH AREAS

Climate Informatics, human-computer interaction (HCI), computer supported cooperative work (CSCW), infrastructure studies, science and technology studies (STS), sustainable HCI, participatory sensing, critical data studies, civic technology

RESEARCH METHODS

Ethnography, design, action research, system building and evaluation

EDUCATION

Ph.D., Computer Science 2019
University of Colorado Boulder

Dissertation:

Crisis Informatics in the Anthropocene: Disasters as Matters of Care & Concern

Committee:

Laysia Palen (chair), Lilly Irani, Jed Brubaker, Joe Bryan, Clayton Lewis, Ken Anderson

Master of Arts, Natural Resources and Sustainable Development 2007
American University, Washington DC

Bachelor of Arts, Political Science 2003
Bachelor of Arts, History
University of Illinois Chicago, Chicago, IL

PROFESSIONAL EXPERIENCE

University of Toronto 7/2020 – Present

Associate Professor (7/2026 – Present)

Assistant Professor (7/2020 – 6/2026)

Computer Science & School of the Environment

Courses Taught:

Qualitative Data Analysis and Writing for HCI (Summer 2025)

Toronto Climate Summer School (Summer 2024, Summer 2025)

Climate Justice in the Greater Toronto Area (Winter 2024)

Computation and Society (Winter 2023 & Winter 2024)

Design Theory & Human-Computer Interaction (Winter 2021, Winter 2023)

Photovoltaic Imaginaries: Community Based Experiments in Sustainability Transitions (Fall 2022)

Social Media & Environmentalism (Winter 2021 & Winter 2022)

Disaster Research from an Interdisciplinary Perspective (Winter 2022)

Columbia University 7/2019 – 6/2020
Department of Computer Science
Post-doctoral Researcher
Teaching Assistant for Advanced Web Design Studio (Fall 2019)

World Bank 3/2011 – Present
Global Facility for Disaster Reduction and Recovery
Senior Disaster Risk Management Consultant

University of Colorado Boulder 8/2013 – 5/2019
Department of Computer Science
Graduate Research Assistant
Teaching Assistant for Social Computing (Spring 2014)

Stanford University 9/2016 – 12/2017
Civil and Environmental Engineering - Stanford Urban Resilience Initiative
Visiting Adjunct Lecturer & Researcher

Courses Taught:

International Development and Disaster Risk (Fall 2016)
Topics in Disaster Resilience Research (Fall 2016, Winter 2017, Spring 2017, Fall 2017)

Development Seed 3/2008 – 12/2010
Lead Software Developer

American University 6/2005 – 8/2005
School of International Service
Teaching Assistant: International Development and the Environment (Online, Summer 2005)

GRANTS

Sustaining the Map: A Mixed-Methods Intervention for OpenStreetMap Contributor Retention. 2026. \$465,062. *Social Science and Humanities Research Council (SSHRC) Insight Grant*. Principal Investigator.

Measuring Impacts of Major Flooding Events on Communities and Infrastructure in the Greater Toronto Area Using an Interdisciplinary Reconnaissance Approach. 2025. \$60,000. *University of Toronto XSeed Fund*. Principal Investigator.

Toronto-Edinburgh Seed Fund. 2025. \$20,000. *University of Toronto Office of the Vice-President, International*. Principal Investigator.

A Framework for Equitable Public Flood Information for Southern Ontario. 2025. \$50,000. *University of Toronto School of Cities*. Principal Investigator.

Reimagining AI in Cities: Co-Creating Ethical Systems for Urban Equity. 2025. \$100,000. *University of Toronto School of Cities*. Collaborator.

Review of best practices in measuring, monitoring, evaluating and reporting (MER) of climate resilience as relevant to the City of Toronto. 2024. \$90,000. *City of Toronto, MITACS Accelerate, and Climate Positive Energy Network*. Principal Investigator.

Toolkit for Improved Climate Hazard and Risk Assessment in Ontario. 2024. \$100,000. *University of Toronto Data Sciences Institute Catalyst Grant*. Principal Investigator.

Pluralizing Climate Change Data Management in the Himalayan Region. 2024. \$24,910. *Social Science and Humanities Research Council (SSHRC) Partnership Engage Grant*. Principal Investigator.

Ontario Climate Risk Workshop. 2024. \$24,971. *Social Science and Humanities Research Council (SSHRC) Connections Grant*. Co-PI.

Design for Community Resilience: Participatory Civic Technology to Close the Last-Mile Disaster Relief Gap in Puerto Rico. 2023. \$999,999 USD. *US National Science Foundation Civic Innovation Challenge*. Co-PI.

The Himalayan Climate Change Field Lab. 2023. \$49,950. *Social Science and Humanities Research Council (SSHRC) Connections Grant*. Principal Investigator.

Toronto Climate Researchers' Workshop. 2023. \$5,000. *University of Toronto Climate Positive Energy Network Event Award*. Principal Investigator.

Equitable and Human-Centered Flood Information for the GTA . 2023. \$5,000. *University of Toronto Excellence Award*. Principal Investigator.

The Toronto Climate Summer School. 2023. \$49,219. *FAS Learning Education & Advancement Fund (LEAF)*. Principal Investigator.

Exploring Gaps and Requirements to Support More Just Engagement with Energy Modelling for Building Retrofits. 2022. \$49,800. *Climate Positive Energy Just Energy Transition Programme*. Principal Investigator.

Building Equity into Climate and Disaster Risk Models in the Himalayas. 2022. \$10,000. *DSI Critical Investigation of Data Science Grant (CIDS)*. Principal Investigator.

Improving Disaster Information and Communication Technology through Co-Design and Tabletop Exercises. 2022. *Natural Hazards Center Public Health Disaster Award*. \$25,000 USD. Co-PI.

Addressing Barriers to Weather Risk Communication Experienced by Ontarians with Visual Disabilities. 2022. *SSHRC Insight Development Grant* – \$69,000. Principal Investigator.

A map-based pedagogical app for experiential learning. 2022. *Instructional Technology Innovation Fund*. \$20,000. Co-PI.

Barrelfish: Smart recruiting solution using artificial intelligence. 2022. *MITACS Accelerate Grant*. \$40,000. Principal Investigator.

Design for Community Resilience: Participatory Civic Technology to Close the Last-Mile Disaster Relief Gap in Puerto Rico. 2022. *US National Science Foundation Civic Innovation Challenge*. \$50,000 USD. Co-PI.

Environmental Justice Data Fund. 2022. \$50,000 USD. Co-Applicant.

Situational Awareness for Community-Based Resilience to Disasters and Climate Change. 2022. *NSERC Discovery Grant*. \$145,000. Principal Investigator.

Photovoltaic Imagination: Solar Strategies for Community Integrated Research-Creation and Graduate Training. 2022. *University of Toronto-University of Edinburgh - Joint Call for Collaborative Projects*. \$17,000. Collaborator.

Evolving dynamics of corporate contributions in OpenStreetMap. 2021. *SSHRC Insight Development Grant*. \$87,000 CAD. Co-PI.

Equity and Inclusion in Disaster Risk Assessments: Reviewing Current Practice to Inform Future Work. 2021. *SSHRC Partnership Engage Grant*. \$16,175 CAD. Principal Investigator.

Research Capacity for a Climate Positive Health System: The International Research Network for Climate Positive Care (IRNCPC) 2021. *Connaught Global Challenge Award*. \$249,820. Collaborator

Building Community-Based Coastal Risk Awareness through Interactive Public Art and New Media. 2022. *New Jersey Council on the Arts*. \$7,000 (USD). Co-PI.

Co-Designing Cultural Probes for Participatory Community Mapping: Informal Emergency Shelter Planning and Management in Puerto Rico. 2020. *Natural Hazards Center Quick Response Grant*. \$50,000 USD. Co-Applicant.

Community Resilience Catalyst: Co-Designing an Integrated Participatory Mapping System for Enhancing Disaster Resilience through Sustainable Community Engagement in Puerto Rico. 2020. *US National Science Foundation Civic Innovation Challenge*. \$50,000 USD. Senior Personnel.

Supporting equitable disaster recovery through mapping and integration of social-vulnerability into post-disaster impact assessments. 2018. *Global Partnership for Sustainable Development Data Innovation Grant*. \$248,000 USD. Co-Applicant.

Estimating regional damage to buildings: Integrating post-disaster data sources and field surveys. 2017. *US National Science Foundation EAGER*. \$100,000 USD. Co-Applicant.

AWARDS, HONOURS, AND AFFILIATIONS

Best Paper Honourable Mention (Top 5% of all submissions)	2026
ACM Conference on Human Factors in Computing Systems (CHI)	

Dean's Excellence Award	2025
Faculty of Arts & Sciences, University of Toronto	

Dean's Excellence Award	2024
Faculty of Arts & Sciences, University of Toronto	

Best Paper Honourable Mention (Top 5% of all submissions) CSCW 2024	2024
Best Paper Honourable Mention (Top 5% of all submissions) DIS 2024	2024
Faculty Affiliate Institutional Strategic Initiative: Sustainable Development Goals, University of Toronto	Nov 2024-Present
Cross-Appointment, Non-budgetary Faculty of Information, University of Toronto	Sep 2024-Present
Dean's Excellence Award Faculty of Arts & Sciences, University of Toronto	2022
Faculty Affiliate School of Cities, University of Toronto	May 2022-Present
Faculty Affiliate Data Sciences Institute, University of Toronto	May 2022-Present
Best Paper (Top 1% of all submissions) CSCW 2021	2021
Natural Hazards Center CONVERGE Working Group Lead Mutual Aid Response to COVID-19	2020
Best Paper Honourable Mention (Top 5% of all submissions) CSCW 2018	2018
Visiting Student Researcher University of California, Berkeley Center for Science, Technology, Medicine & Society	2018
Best Paper Honourable Mention (Top 5% of all submissions) CHI 2017	2017
Graduate Certificate in Critical Theory CU Boulder Department of German & Slavic Language & Literature	2016
Best Student Paper Nominee ISCRAM 2015	2015
Best Student Paper ISCRAM 2014	2014
CU Research Assistant Award Department of Computer Science University of Colorado Boulder	2014
